Uniper Trainee Program – Engineering (f/m/d)

Do you want to be part of #unipersnextgeneration and shape the energy world of tomorrow with us? Join our trainee program in October 2020!

What you can expect

- Throughout the course of the 18 / 24-month program based in Germany you will experience new challenges, exciting opportunities and the chance to network internationally
- The program will give you in-depth insight into our business and help you to explore your strengths
- You will also have the chance to bring-in and enhance your social and teamworking skills
- Individual mentoring and a buddy from day one will give you the best possible foundation for the next step in your career at Uniper
- You will gain insights into how we operate and maintain our power generation and gas storage assets and contribute to real projects that improve our operational performance
- You will learn not only how we manage our assets, but also how we manage their associated risks, balancing commercial and operational needs, and importantly, you will learn how we develop our people to ensure that we are a market leader

Who we are seeking

- A successfully completed degree focusing on engineering, science or mathematical programs
- Interested in getting a good understanding of Uniper’s business and working in our power plants
- Relevant internships and/or working student placements
- Exposure to foreign cultures and languages is mandatory, experience abroad is a plus
- Show your technical and operational expertise as well as your entrepreneurial thinking
- A strong will in taking over responsibility and improving structures and processes
- Strive to work together in teams and very good communication skills
- Highly proactive and mobile with a hands-on and self-reflective personality
- Very good written and verbal English language skills; German language skills are an advantage
