Uniper Trainee Program –
Asset Operations - Focus on Steam & Biomass (f/m/d)

Do you want to be part of #unipersnextgeneration and shape the energy world of tomorrow with us?
Join our trainee program in October 2020!

What you can expect
• Throughout the course of the 18 / 24-month program based in Germany you will experience new challenges, exciting opportunities and the chance to network internationally
• The program will give you in-depth insight into our business and help you to explore your strengths
• You will also have the chance to bring-in and enhance your social and teamworking skills
• Individual mentoring and a buddy from day one will give you the best possible foundation for the next step in your career at Uniper
• You will support power plants and the central performance management teams in the implementation of global processes and work collaboratively with other functional units to assure asset optimization, continuous improvements and delivery of business strategies to benefit Uniper
• You will learn about the challenges, opportunities and further developments of major assets by getting directly involved

Who we are seeking
• A successfully completed degree focusing on economics, engineering or science
• Interested in getting a good understanding of Uniper’s business
• Relevant internships and/or working student placements, operational knowledge in a thermal power plant or similar scale assets and/or experience in delivering projects and change programmes would be beneficial
• Show your technical and operational expertise as well as your entrepreneurial thinking
• A strong will in taking over responsibility and improving structures and processes
• Strive to work together in teams and very good communication skills
• Experience working in an international environment with cultural diversity desirable
• Highly proactive and mobile with a hands-on and self-reflective personality
• Very good written and verbal English language skills as well as being fluent in German language
